Career Objective

A dedicated Computer Science Engineering student with a strong foundation in programming, data structures, and web development. Possessing strengths in problem-solving, adaptability, and teamwork, along with a keen interest in learning new technologies. I am committed to applying my knowledge and contributing effectively to real-world projects while continuously improving my technical and professional skills.

Education

Ashoka Women's Engineering College, Andhra Pradesh B.Tech in Computer Science Engineering	Ongoing 79.15%
J.C.N.R.M Junior College Intermediate (MPC)	2023 89.5%
MPL Girls High School Secondary School	2021 97.5%

Technical Skills

- **Programming Languages:** C, C++.
- **Web Technologies:** HTML, CSS, JavaScript, Node.js, Express.js
- **Core Concepts:** Data Structures and Algorithms
- **Tools:** Git, VS Code
- **Soft Skills:** Communication, Teamwork, Adaptability

Projects

HealthAxis – Hospital Management System React | Node.js | Express | MySQL

- Developed a full-stack hospital management system with role-based access for admin, doctors, staff, and patients.
- Implemented secure authentication and authorization features.
- Built modules for appointment scheduling, patient records, and report management.
- Enhanced efficiency through centralized data handling and structured workflows.
- Utilized HTML, CSS, JavaScript, Node.js, and Express.js for development.

Certifications

- Data Structures and Algorithms – Smart Interviews
