CAREER OBJECTIVE

Motivated Computer Science student with skills in Java, SQL, Python, and web development seeking an entry-level software role to apply programming and problem-solving abilities.

TECHNICAL SKILLS

- Languages: Java (Basics), Python (Basics), C, SQL
- Web Technologies: HTML, CSS, JavaScript
- Core Concepts: Data Structures & Algorithms
- Database systems: DBMS, MySQL

PROJECTS

Complaint Management System (HTML, CSS, JavaScript, SQL)

- Developed a centralized complaint management platform for students and hostel residents.
- Implemented complaint registration, status tracking, and role-based access for Admin and Users.
- Integrated complaint categories and real-time status updates such as Pending, In Progress, and Resolved.

EDUCATION

- | | |
|---|-------------------|
| • B. Tech in Computer Science & Engineering, Ashoka Women’s Engineering College | 2023–2027 – 83.2% |
| • Intermediate (MPC), Bheeram Sreedhar Reddy Junior College, Kadapa | 2021–2023 – 83% |
| • SSC, Jyothi Vidya Niketan EM High School, Kurnool | 2020–2021 – 94.8% |

TRAINING

SMART INTERVIEWS – Data Structures & Algorithms Program (Feb 2025): Enhanced coding, logical thinking, and problem-solving skills through coding contests and mock interviews.

ACHIEVEMENTS

- Participated in coding contests and weekly DSA challenges.
- Completed technical training in Data Structures and Algorithms.
- Built web-based project using frontend technologies and SQL.
- Secured a prize in the State-Level Throwball Competition conducted in Visakhapatnam during Intermediate

CERTIFICATIONS

- Introduction to Database Systems – NPTEL
- Basics of Python – Infosys
- Introduction to C – Solo Learn
